CRASH'S CRAZED KART RACE

Crash Bandicoot's "take it easy" island life is about to get cramped. Crash's newest nemesis, a crabby alien named Nitros Oxide, just flew into this part of the galaxy looking for trouble.

This cranky space invader thinks he's the fastest racer in the entire universe and has challenged the best driver of Crash's world to a race for the planet. Worst of all, if Oxide wins, he promises to turn the entire world into a concrete parking lot!

It's obvious that Oxide isn't playing with a full crate of Wumpa Fruit. Even past villain Dr. Neo Cortex has taken Crash's side as an unlikely ally. Things must be really desperate.

All of Crash's friends, and even a few of his past foes, think they are the fastest driver in the world, and should be the hero racer to face Oxide and save the planet. But Oxide is a world-class speedster. So who will be his toughest competition?

Get ready to jump into a kart adventure where the stakes are high and the competition fierce. Race like crazy and sharpen your reflexes as you prepare to face Oxide for the fate of Crash's world!

MAIN MENU

CTR (Crash Team Racing) gives you a choice of five different racing modes. You pick your character in every mode. At the start you can select Crash, Coco, Pura, Dingodile, Tiny, Polar, N.Gin or Dr. Neo Cortex.

To pick a racing mode on the main menu, press the Directional Button or the Left Stick UP/DOWN to highlight a mode and press the ✖ button.

The CTR Adventure

Adventure is a one-player game. Race through all of the levels in the game and collect every Racing Trophy, Relic, Letter, Boss Key, CTR Token and Gem you can win. You can save the Adventure mode to a MEMORY CARD so you can come back later and pick up where you left off. See page 8, "The CTR Adventure" to find out more about this mode.

Time Trial

Time Trial is a one-player game where you race against the clock. Pick any level you want and speed through it as fast as you can. There are no other racers here to slow you down, making this a great event to practice your kart handling. There are also no power-ups, so this race comes down to you against the road.

After a Time Trial, you have the option to Save your "ghost". The "ghost" is an exact replay of the race you just ran. Race against your "ghost" and shave seconds off your own time!

Race Through a Time Trial

1. On the Main Menu, highlight TIME TRIAL and press the ✖ button.
2. Pick a Racer. Press the Directional Button or Left Stick to highlight a character and press the ✖ button.
3. Press the Directional Button or Left Stick UP/DOWN to scroll through the tracks and press the ✖ button to make your selection.

If your time is a new best score, you can save it to the MEMORY CARD. See page 17, "Saving & Loading Adventure Games & High Scores."

Arcade

This mode allows a player to jump in quickly and race on a selection of tracks. You can select a Single Race or choose to enter a Cup where you race on four tracks in a row for points.

In a Single Race, one or two players race with the remaining computer drivers. You can set the difficulty of the races to Easy, Medium or Hard, pick your track, and set the number of laps to 3, 5 or 7.

In a Cup Race, one or two players race with 4 additional computer drivers. You can choose which Cup to Race and set the difficulty to Easy, Medium or Hard.

Note: A Multi Tap is required on your PlayStation game console in order to play a three or four player game.

Battle

Up to four players wage kart warfare launching weapons during combat in one of seven special battle arenas. You can team up or have a free for all. Find out more about Battle Mode on page 18, "Get Ready for a Battle on Wheels."

High Score

Check out the High Score screen after you get in a few races to see how your stats stack up against the other racers. You must enter your name on the Save screen after winning a race for your name to show up on the High Score screen.

THE CTR ADVENTURE

Save the world from Nitros Oxide by winning races on 16 different tracks in levels throughout the island. Starting at the World Map, choose one of the Warp Pad Vortexes that lead to each track. In the beginning of the game you have access to only two levels. As you win races, more Warp Pads will open up.

5. On the MEMORY CARD screen, highlight the MEMORY CARD slot you want your Adventure saved to and press the ✖ button.
6. You will appear at the World Map where you enter all races. Drive into an open Warp Pad to begin the adventure.

The World Map

The Warp Pads to each track can be accessed at the World Map. In addition to the main World Map where Oxide's ship has landed, there are four more secondary maps with four Warp Pads each. Open Warp Pads sparkle because their vortex is active. Closed ones don't sparkle and cannot be entered. Just drive into a sparkling one to begin a race. When you finish a race, you will return to the World Map. If you win a Trophy or Relic, you'll go to the Winner's Circle to collect your prize first!

The Radar

Find open Warp Pads by using the Radar on the lower right corner of the screen. Open pads and map passageways sparkle.

- *The orange triangle is your racer's location and always points in the direction your racer is [illegible]*
- *Grey dots are Warp Pads not yet open*
- *The small flashing silver dots are open Warp Pads. As you win races, more Warp Pads will open up*

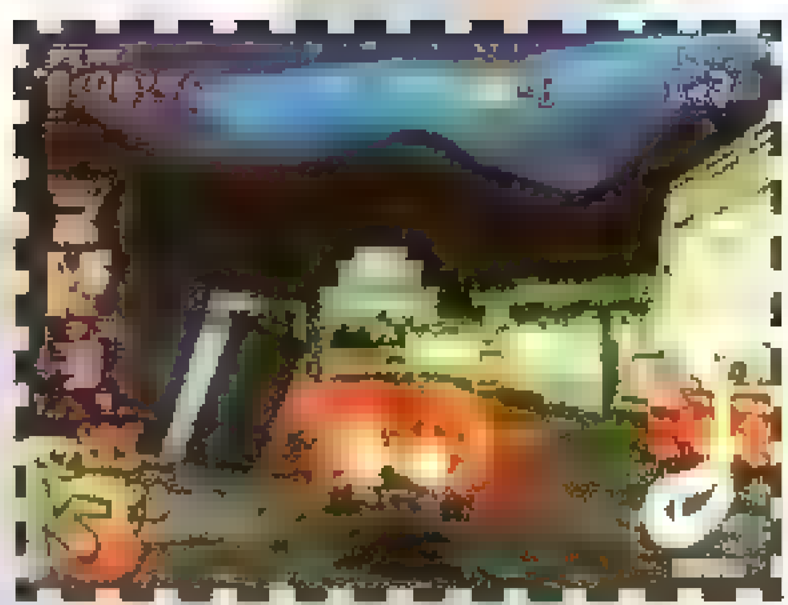
Winning a Level

In each level you must win a Trophy (1st Place) against all other racers. That will prove you're fast, but to show that you're really great, go back in and win the Relic and CTR Tokens as well.

Tips for winning a regular race:

- *Break open Crates holding [illegible] weapons. [illegible] faster or wreak [illegible] on your fellow racers*
- *[illegible] Making turns too wide or driving off-road on the grass or side dirt will only slow you down*
- *Watch out for other drivers. They have weapons too and would be more than happy to use them against you*
- *Keep your eyes open. Some of the tracks may have shortcuts*

Trophy Race



Take a Trophy by coming in ahead of every other racer. While you're screaming around the track avoiding hazards and attacks by other drivers, try to grab important power-ups.

- [illegible]

Relic Race

If you re-enter a track where you've already successfully won the Trophy, you can go on to do the Relic Race. In a Relic Race you speed through the track alone and try to get the fastest (lowest) time possible. If you get a fast enough time, you will be awarded a Sapphire Relic. With even faster times, you can win a Gold Relic, or the much coveted Platinum Relic!

During a Relic Race, Time Crates are scattered throughout the level. Break these and your race timer will stop for 1, 2 or 3 seconds (as indicated on the Time Crate). Can you break all the Time Crates on the track while racing fast? If you do, you'll be awarded a Perfect Bonus of ten seconds off your time at the end!

Win a relic in the Relic Race to clear that part of the level. Go back and race for a higher relic if you dare!

CTR Challenge

If you re-enter a track where you've already successfully won the Trophy, you can accept a CTR Challenge. On each race track, the letters C, T, and R are scattered around the track. If you are fast enough to find and collect all three, while still coming in First Place, you will be awarded a CTR Token.

There are five different colors of CTR Tokens – Red, Blue, Green, Yellow and Purple. Collecting four CTR Tokens of the same color will open that color's Gem Cup. (See Gem Cups below)

Gem Cups

Once you've collected four CTR Tokens of a certain color, you can race in the Gem Cups found in a locked Warp Room in Gem Stone Valley. There are five Gem Cups – Red, Blue, Green, Yellow, and Purple A Gem Cup consists of four tracks in a row where you race for points. Come in First Place and receive 9 points. Second Place gives you 6 points. Third Place gets 3 points. And Fourth Place squeaks by with 1 point. Everyone else gets nothing! At the end of the four races, the racer with the highest number of points wins. If you manage to be in the top of the pack for enough races of the Cup, you'll earn enough points to win and be awarded a Gem!

Bonus Rounds

There are four Bonus Rounds, one in each of the Boss Areas. In each Bonus Round, you must collect all 20 crystals before the Timer runs out. Be careful! Some Bonus Rounds have dangerous obstacles! If you collect all the crystals in time, you will be awarded a purple CTR Token.

What You Need to Win the Game:

- **Trophies** — *Win 1st place in the Trophy Race on all 16 tracks of the game*
- **Boss Keys** — *Keys open [illegible] of the Map. To win a Boss Key, win all four Trophy races in a hub. Then race and beat the Boss to get a Boss Key. With four Boss Keys, you can unlock the N. [illegible] Door and battle the [illegible]*
